

Submission to the National Commission of Audit	
Organisation (if applicable)	
Title	Mr
First name	Glenn
Surname/Family name	Appleyard
<p>Key areas of interest regarding the Commission's Review:</p> <p># Elimination of duplication between areas of government</p> <p># Improve the overall efficiency and effectiveness with which government services are delivered.</p> <p>I wish to draw to the Commission's attention the role carried out by PSMA Australia Ltd which is a for-profit company owned by the 9 governments of Australia. It plays a key role in the aggregation and dissemination of accurate and timely spatial information to both the public and private sectors. There are elements of duplication which exist at both the commonwealth and state level within this area of activity. A decision to rationalize functions in this area, could lead not only to a reduction in the degree of duplication, but also significant improvements in both the delivery of government services and the use of spatial data within the Australian economy. I would be pleased to elaborate on this submission should the Commission seek further information.</p> <p>I I currently hold the position as independent Chairman of PSMA Australia Ltd, but must emphasize that I make this submission as an individual and my views should not be attributed in any way to PSMA Australia Ltd.</p> <p>I apologies for the brevity of this submission however I have only just become aware of the closing date for submissions.</p> <p>Yours sincerely</p>
